this section if you have been so ordered by the Commission or by a court.

(g) Beginning August 31, 1999, and ending March 31, 2000, you must make backup records for all master securityholder files at the close of each business day and must preserve these backup records for a rolling five business day period in a manner that will allow for the transfer and conversion of the records to a successor transfer agent. If you have a material Year 2000 problem, you must preserve for at least one year the five day backup records immediately preceding the day the problem was discovered. In addition, you must make at the close of business on December 27 through 31, 1999, a backup copy for all master securityholder files and preserve these records for at least one year. Such backup records must permit the timely restoration of such systems to their condition existing prior to experiencing the material Year 2000 problem. Copies of the backup records must be kept in an easily accessible place but must not be located with or held in the same computer system as the primary records, and you must be able to immediately produce or reproduce them. You must furnish promptly to a representative of the Commission such legible, true, and complete copies of those records, as may be requested.
